

Chef Neven Maguire launches new cooking app

Irish celebrity chef Neven Maguire's new cooking app 'iCook with Neven' has become one of Ireland's top selling lifestyle apps shortly after being launched

Maguire owns and runs MacNean House & Restaurant in Blacklion and is also a TV presenter

"Life has become so busy for everyone and more and more people are planning their meals on the move. With my app, people can look up recipes and get inspiration for what they want to cook when they go home," he explained

"One of my favourite features on the app is the ingredients page on each recipe – depending on the number of people you need to feed, the quantity of ingredients changes automatically. I also love the fact that through the app I can keep in touch on Facebook and Twitter with users following the recipes and see how they are getting on"

Featuring over 60 of Maguire's favourite recipes, the 'iCook with Neven' app is available for iPhone, iPod Touch and iPad. A number of recipes are accompanied by demonstration videos and recipes are grouped into categories including Breakfast/Brunch, Lunch, Dinner, Snacks/Party Foods and Desserts
