

€1.5 Million Luxury Spa Opens in Kilkenny City

Kilkenny Ormonde Hotel celebrates the opening of Kilkenny City's first luxury urban day spa, KO Spa. Representing an investment of €1.5 million, the new spa is creating six full-time jobs including a spa manager and team of experienced therapists.

KO Spa is part of Kilkenny Ormonde Hotel's major €7.5 million re-development programme of the hotel's leisure, dining and conference facilities.

KO Spa is located in the hotel's newly extended and upgraded Health Club and can be accessed through the club or by its own on-street entrance. The spa offers a comprehensive range of treatments from customised facials, grooming treatments, relaxation and deep tissue massages to specialist treatments for men and expectant mothers. To ensure a complete spa experience clients can avail of health-conscious refreshments as well as enjoy the spa's opulent relaxation area.

"Taking on board feedback from guests and Health Club members we responded to a real demand for a luxury day spa in Kilkenny City", says Tom Walsh, General Manager of Kilkenny Ormonde Hotel. "The spa is already a huge hit with residents and we have seen an increase in room bookings as a result. We want to build on our loyal local client base and to make the spa easily accessible we offer free car-parking, extended opening hours and an on-site crèche".

KO Spa introduces the renowned Elemis range of treatments and products. Elemis is one of the world's leading spa and skincare brands favoured by over 5.7 million spa-goers every year and is famous for its anti-ageing products and professional spa therapies.

To contact Kilkenny Ormonde Hotel's new luxury KO Spa, call 056-7723900 or e-mail info@kilkennyormonde.com.
